PREPARATION OF THE ANNUAL FIRE SAFETY REPORT

This Annual Fire Safety Report (AFSR) is prepared by the Director of Residential Life. The AFSR is a disclosure of various policy, procedure and program statements pertaining to fire safety of the on-campus residential housing community. This includes disclosure regarding the number of reportable fires that occurred within on-campus housing facilities for the three most recent calendar years. All policy and procedure references in this report apply only to the housing facilities located on SJSU's Main Campus.

The process used for preparing this report in compliance with federal law and CSU policy involves collaboration with the Clery Compliance Official for the university. While there are similarities in the safety information provided, this Annual Fire Safety Report is separate and distinct from the Annual Security Report required by the Clery Act.

An electronic or paper copy of the most recent Annual Fire Safety Report can be requested by contacting the University Housing Services Office or visiting the website listed below:

DESCRIPTION OF ON-CAMPUS RESIDENTIAL FACILITY FIRE SAFETY SYSTEMS

Campus Village A (CVA)

Address: 380 S. 9th Street, San José, CA 95112

This facility is an eight-story residence hall that has capacity to house approximately 205 individuals in one, two, three and four bedroom unit floorplans.

- Fire System Utilized: Siemens System
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by Siemens Fire Alarm Systems.
- Sprinkler Locations: Throughout the building in individual units and common areas
- Number of Fire Extinguishers: 56
- Number of Manual Pull Stations: 1
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 0

Campus Village B (CVB)

Address: 350 S. 9th Street, San José, CA 95112

This facility is a 15-story residence hall that has capacity to house approximately 1555 individuals in one, two, three and four bedroom unit floorplans. There is a convenience store on the first floor.

- Fire System Utilized: Siemens System
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by Siemens Fire Alarm Systems.
- Sprinkler Locations: Throughout the building in individual units and common areas
- Number of Fire Extinguishers: 197
- Number of Manual Pull Stations: 17
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 0

Campus Village C (CVC)

Address: 320 S. 9th Street, San José, CA 95112

This facility is an eight-story residence hall that has capacity to house approximately 641 individuals in one, two, three and four bedroom unit floorplans. One building has a laundry room, lounge space and lounge office.

- Fire System Utilized: Siemens System

- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by Siemens Fire Alarm Systems.
- Sprinkler Locations: Throughout all buildings in individual units and common areas
- Number of Fire Extinguishers: 72
- Number of Manual Pull Stations: 1
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 0

Campus Village 2 (CV2)

Address: 345 S. 9th Street, San José, CA 95112

This facility is a 10-story residence hall that has capacity to house approximately 641 individuals.

- Fire System Utilized: Simplex System
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by Simplex.
- Sprinkler Locations: Throughout all buildings in individual units and common areas
- Number of Fire Extinguishers: 41
- Number of Manual Pull Stations: 1
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 11

International House

Address: 360 S 11th Street, San José, CA 95112

This facility is a 3-story residence hall that has capacity to house approximately 70 individuals. There is a community kitchen on the 1st floor of the facility.

- Fire System Utilized: Honeywell
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by Honeywell
- Sprinkler Locations: Basement level and professional kitchen on floor 1
- Number of Fire Extinguishers: 7
- Number of Manual Pull Stations: 9
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 6

Joe West Hall

Address: 375 S. 9th Street, San José, CA 95112

This facility is a 12-story residence hall that has capacity to house approximately 671 individuals. There is a community kitchen on the main floor of the facility.

- Fire System Utilized: Simplex System
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by Simplex
- Sprinkler Locations: Throughout the building in individual units and common areas
- Number of Fire Extinguishers: 28
- Number of Manual Pull Stations: 36
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 21

Lucy Washburn Hall

Address: 385 S. 8th Street, San José, CA 95112

This facility is a three-story residence hall that has capacity to house approximately 263 individuals.

- Fire System Utilized: Honeywell System
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by the University Police Department (UPD).
- Sprinkler Locations: There are no sprinklers located in this housing facility.
- Number of Fire Extinguishers: 9
- Number of Manual Pull Stations: 9
- Number of Fire Hoses: 8
- Number of Fire Hose Connections: 8

Spartan Village on the Paseo

Address: 184 S. Market Street, San José, CA 95113

This facility is a thirteen-story residence hall that has capacity to house approximately 679 individuals. The building is a converted hotel property that was acquired and converted by the University. Students first moved into the building for the Fall 2024 semester.

- Fire System Utilized: Notifier
- Fire System Monitoring: The network is monitored 24 hours a day, 7 days a week by the University Police Department (UPD).
- Sprinkler Locations: Throughout the building in individual units and common areas
- Number of Fire Extinguishers: 0

- Number of Manual Pull Stations: 0
- Number of Fire Hoses: 0
- Number of Fire Hose Connections: 0

REGULAR MANDATORY SUPERVISED FIRE DRILLS

During the spring 2025 semester, a total of 8 fire evacuation drills were conducted, 1 in each residence hall facility. During the fall 2025 semester, a total of 8 fire evacuation drills were conducted, 1 in each residence hall facility.

ON-CAMPUS RESIDENTIAL FACILITY POLICIES ON PORTABLE ELECTRICAL APPLIANCES, SMOKING AND OPEN FLAMES

All Housing and Residential Education Policies are described in the Annual Housing License Agreement as well as the Community Living Handbook. All residents are responsible for being familiar with the information contained in those documents. The following policy areas are identified below for the purposes of this report:

Appliances

UHS residential facilities have limits on their electrical systems. Overloading the circuits can result in tripped circuit breakers and present a fire hazard. The following guidelines apply to the use of electrical apparatus in all on campus residence hall communities:

- a) Items with exposed heating elements are prohibited. This includes, but is not limited to, space heaters (unless supplied by UHS), sun lamps, immersion heaters, hot plates, portable grills, and stoves.
- b) Privately owned air conditioners are not permitted.
- c) Fans are not allowed in windows and should never be used unless a resident is present.
- d) International appliances must use electrical converters.
- e) Irons must be used with ironing boards only and should never be left unattended.
- f) Stereos, radios, desk lamps, computers, TV's, DVD players are permitted. Stereo equipment and speakers are expected to be of a size and power that are appropriate for high-density community living.
- g) Sealed-component hair dryers and other electrical hair implements are permitted.

- h) Electric blankets are permitted.
- i) Microwaves are permitted; wattage may not exceed 900 watts.
- j) Refrigerators for private bedrooms are permitted; size may not exceed 4.0 total cubic feet.

CVA Apartments and CVB Apartments

The following appliances are permitted: crock pots, toasters, toaster ovens, rice steamers, electric grills, coffee makers, electric kettle, air fryers and electric frying pans. It is recommended that these items are utilized on the kitchen counter located within the apartment. These appliances must not overload the system and must be directly attached to grounded outlets. Any damage caused by personal appliances or misuse is the financial responsibility of the resident, including damage of any kind (fire, water, etc.) to the facility and/or other residents' personal belongings. Violations of these guidelines may result in immediate license revocation. CVA Efficiencies do not have kitchens and must adhere to the same cooking policies as the CVC Suites, Spartan Village on the Paseo, Classics and CV2.

CVC Suites, I House, Classics, SVP and CV2

The following appliances, the only appliances permitted: crock pots, electric kettle, coffee makers and rice steamers. It is recommended that these items be utilized in the community kitchen or the kitchenette (CVC Suites). These appliances must not overload the system and must be directly attached to grounded outlets. Absolutely no open coil or exposed heating element appliances may be stored or used in rooms. Any damage caused by personal appliances or misuse is the financial responsibility of the resident, including damage of any kind (fire, water, etc.) to the facility and/or other residents' personal belongings. Violations of these guidelines may result in immediate license revocation

Cooking

In the CVC Suites, SVP, I House, Classics and CV2 residence halls, cooking is limited to the building community kitchen (SVP, I House, Classics or CV2) or kitchenette (CVC Suites) area and is not permitted in the bedrooms. In the CVA and CVB apartments with kitchens, cooking is permitted. Efficiencies (CVA) do not have kitchens and must adhere to the same cooking policies as the CVC Suites, SVP, I House, Classics and CV2. Refer to the Appliances section for approved appliances in each community. Under no circumstances are microwaves, stoves, and other similar appliances to be left unattended while in use. Any damage done or inconvenience caused to the community (smoke alarms, fires, etc.) is the financial responsibility of the resident and may result in referral to the student conduct process for adjudication.

Decorating and Renovating Room Structure, Furnishings or Grounds

- a) Any personal items brought into the room/suite/apartment must be removed upon checkout. All decorations must be compliant with fire safety regulations.
- b) University furniture is to remain in the room/suite/apartment at all times. University furniture provided in each bedroom must remain in the bedroom and cannot be moved to any area outside of the bedroom.
- c) Disassembling any University furniture including lofted or bunked beds is strictly prohibited.
- d) University Housing Services cannot store University furniture to make room for personal items.
- e) Residents may not move their furniture out of their personal bedspace and into the common space or place common space furniture into their bedroom.
- f) Do not make holes in walls. To hang something on a painted surface, use a product that is approved to prevent damage. (Contact University Housing Services for product recommendations). Nails, tacks, non-approved adhesives, tape, and stickers are not to be affixed to university property. Painting and spray painting is not permitted in the Housing facilities or on Housing grounds except by authorized personnel.
- g) Altered beds must be returned to their original position prior to check-out. A maintenance request (TMA) must be submitted to bunk, loft or lower your bed. Please note that no changes will be made until two weeks following the room change process each semester. For assistance to change the bed height (not bunking or lofting) there is a \$40 charge for labor (unless it is required for medical reasons).
- h) Residents may not turn double or triple rooms into single rooms unless assigned as such. Residents may only use the furniture that is assigned to the individual. Other furniture needs to be ready for another student to move in and utilize.
- i) It is strictly prohibited to place any furniture, including beds, in front of operable windows or exit doors. Blocking or impeding operable window or door egress, or any other actions relating to doors that makes entrance or exit difficult and actions relating to windows that result in a greater risk of a resident or guest falling through a window, is a violation of University Housing Policy and poses an extremely serious danger.

- j) Any form of bed/furniture elevation that involves non-University Housing furniture, or attachments to University Housing furniture is considered a loft and not permitted.
- k) Tapestries, flags, and burlap burn rapidly. If hung from a wall, ceiling, or windows, they can feed a fire. They cannot cover a window or door. It is prohibited to hang such materials from the ceiling. These decorations may be affixed to the wall if they have been treated with a fire retardant and are so labeled.
- l) Due to state fire codes, all decorations must be confined to the interior of the unit door. At no time can anything be in the corridors. Nothing is permitted on the exterior/hallway door of the room/suite or apartment
- m) Holiday decorations are permitted. Trees must be no taller than 3 feet, artificial and flame retardant. Lights should be used only when a resident is in the room or apartment. All lights/cords must be in good condition and be UL certified. Doors may be decorated within the unit as long as the decorations do not cause damage or a safety hazard.
- n) Grounds: The community grounds are maintained by the University. Residents shall not erect fences, cultivate plants, or make other changes to the grounds.
- o) Antenna and Related Equipment: Residents shall not erect any exterior antennas or other equipment for television or radio reception.
- p) Balconies and Exterior Entrances: All outside balconies, entryways, and terraces must be kept clear of all items. A balcony, entryway, or terrace may not be used for storing personal items, displaying plants or other decorative items, drying laundry, beating rugs, shaking dust mops, or hanging any article. No items, including trash and other material may be thrown from any balcony or terrace. No barbecues are permitted.
- q) Plumbing Fixtures and Other Water Apparatus: The bathtubs, basins, sinks, garbage disposals, and other plumbing fixtures and water apparatus shall not be used for any purpose other than that for which they were constructed. Among other things, these fixtures and apparatus may not be used for the disposal of rubbish, rags, sweepings, matches, hanging decorations and similar improper articles. Any damage or expense resulting from the misuse of the foregoing fixtures and apparatus must be borne by the resident causing the damage or on whose premises the damage was caused.

Electrical Safety

Extension cords are not permitted. UL approved, grounded power strips with circuit breakers should be used for all electrical equipment including computer and computer-related hardware. A maximum of two power strips may be used per room. No modifications to, or changes in, electrical wiring are permitted. No "splices," "octopuses" or modification devices of any kind may be used to add plugs in a room, suite or apartment. Any damage caused by personal appliances or misuse of the electrical system is the financial responsibility of the resident, including damage of any kind (fire, water, etc.) to the facility and/or other residents' personal belongings. Violations of these guidelines may result in immediate license revocation.

Fire Safety

- a) Combustible Material Storage: The storage of combustible materials (gasoline, paint thinner, wax etc.) within the residential facility, including resident rooms/suites/apartments, is not permitted.
- b) Fire Alarm/Drill: All residents and guests must evacuate a residential facility immediately when the fire alarm sounds. Those who do not evacuate are in violation of university policy and State fire code and may result in a ticket from UPD or the San Jose Fire Department and/or being referred to the UHS judicial system.
- c) Fire Safety Equipment: Residents are responsible for familiarizing themselves with the evacuation instructions located on the inside of their room/suite/apartment door. If the instructions are missing or illegible, the Residential Life Coordinator should be contacted immediately to have a new one installed. Residents are required to initial that they have been shown the evacuation instructions on the Room/Apartment Inventory Form at check-in. The following misuses of fire safety equipment are considered violations of policy and will result in judicial and/or legal action (\$1,000.00 fine and up to 6 months in prison), maintenance charges, and/or remuneration: pulling fire alarms or removing fire alarm covers when no fire exists, blocking or propping fire doors, blocking fire stairwells, tampering with smoke detectors, misuse or tampering with the Evacutrac Chair, tampering with alarm horns, strobes, enunciator or bells, misuse or tampering with sprinkler system heads (including, but not limited to, hanging items from sprinkler heads), tampering with fire exit signs, and tampering or improper use of fire extinguishers or fire hoses. Note that each residence hall room contains a smoke detector and each apartment/suite contains a smoke detector and fire extinguisher for residents' safety. Contact the Residential Life Coordinator for additional information about

fire safety or if any of your unit's fire safety equipment appears to be malfunctioning.

- d) Open Flame: No open flames are permitted in the residence halls or within housing property outside of designated areas without official UHS approval. This includes, but is not limited to candles, incense, smoking, and the burning of any materials or other flame-emitted articles. Prior written approval must be obtained from the Residential Life Coordinator if this policy is incongruent with religious, cultural, or spiritual beliefs.
- e) Portable Heaters: The utilization of portable heaters in the residence halls is not permitted, with the exception of areas that do not have permanent heating units.
- f) Halogen Lamps: Halogen lamps/lighting are not permitted.
- g) Doors: All unit doors are to be kept closed at all times due to the integrity of the rated corridors. At no time are the doors to be propped open or left ajar.

Odors

The effects of smoke, fumes, and odors must be confined to individual rooms, suites, or apartments. Residents must appropriately ventilate the apartment while cooking by opening windows and using appropriate ventilation equipment. Residents are not to prop their apartment/room doors to air out their rooms, especially when cooking as smoke may activate the fire alarm in the corridor. The use of incense, candles, or other strong odor producing products is prohibited. The choice of scented air fresheners or cleaning products should be discussed among roommates to ensure no one is allergic or offended by the scent.

Smoking

- a) San José State University is committed to promoting a healthy learning and working environment. Consistent with this commitment and in accordance with Presidential Directive 2014-01, smoking and tobacco use is prohibited in all indoor and outdoor areas on campus, including vehicles and parking lots.
- b) The sale of tobacco products is prohibited, as is tobacco related advertising and sponsorship.
- c) "Smoking" is defined as inhaling, exhaling, burning or carrying a lighted cigarette, cigar, pipe or electronic cigarette. "Tobacco product" is any item containing tobacco leaf and any product containing biologically active amounts of nicotine that can be inhaled. It does not include any product designed and approved by the U.S. Food and Drug Administration for the use in treating nicotine or tobacco dependence.

- d) Dismantling smoke detectors will result in student conduct action, UPD citation, and/or restitution for all repairs.
- e) Residents who do smoke within UHS housing facilities are in violation of the License Agreement and are subject to criminal prosecution and University disciplinary proceedings which may be grounds for immediate disciplinary action and/or revocation of the Housing License Agreement. **Residents will still be responsible for the full amount owed in their Housing License Agreement for the academic year.**

PROCEDURES FOR ON-CAMPUS RESIDENTIAL FACILITY EVACUATION IN EVENT OF FIRE

When an alarm is activated in a residential building, all staff in the building will be directed to exit and move to the Evacuation Assembly Points. Residents should always evacuate the building when the fire alarm or smoke detector sounds. Failure to do so is a violation of the license agreement and state laws and could cause physical harm. **Evacuation Assembly Point:** All residents are directed to the front of the University Event Center Building.

Individuals should leave through the nearest safe exit when they hear the building emergency alarm (fire alarm) or if they are told to do so by University Police, Fire Department or UHS staff.

Residents should take keys, wallets, prescription medicines, glasses, warm clothes and other essential personal belongings with them in case this building cannot be reentered immediately.

Individuals must move at least 150 feet away from all structures and meet in their specified location. If they do not know the designated location, they should contact their Resident Assistant.

Individuals should use the stairs. Stairwells are safe, temporary havens for the injured or the disabled. Individuals should not use elevators in case of fire or earthquake; many elevators stop in place.

University Police will be contacted and informed that the alarm went off and the location of the alarm. If it is determined that there is a fire, University Police will dispatch the Fire Department. A staff member should meet the University Police officer and assist as needed.

University Police will be notified of the location of residents with disabilities or any resident needing assistance. All staff will assist, as needed, in evacuating the residents from the building to the designated evacuation sites.

The Fire Department and/or University Police will access the fire panels and assess the status of the emergency.

When determined safe, the University Police will allow residents to return to the building.

If residents become aware of a fire, they are to immediately report the fire to 911. The process outlined above will then be enacted.

POLICIES REGARDING ON-CAMPUS RESIDENTIAL FIRE SAFETY EDUCATION AND TRAINING

Professional and Student Staff

Fire safety training is provided to professional and student staff annually. The training content includes the following:

1. Response protocols including notification procedures
2. Evacuation procedures for each individual residence hall facility
3. Fire system descriptions for each individual residence hall facility and instructions on appropriate usage
4. Documentation of incidents

Residents

Important safety information is included in a document entitled "Your Guide to Living in [name of hall]". Select information from this document is identified below for the purposes of this report:

Emergency Procedures

Please note evacuation procedures on the back of your room or apartment door. If they are missing or illegible, see your RLC immediately for replacement.

In Case of Fire

If you cannot safely extinguish the fire:

1. Evacuate the area.
2. Close all doors as you leave - take your access card and key.
3. Do not use any elevators.
4. Call 911.

For fire inside your room:

1. Call 911.
2. Give your exact location.

3. Tell them what is burning.
4. Activate Fire Alarm (if in the residential community).

For fire outside your room:

1. Feel the door - If it is hot, DO NOT open it (student room doors have a 2-hour burn capacity).
2. Call 911 and give them your exact location.
3. Seal the bottom of your door with cloth material wet, if possible, to keep smoke out.
4. Retreat. Close as many doors between you and the fire as possible.

If the door is not hot, open it cautiously:

1. If there is smoke present - stay low.
2. Walk or crawl to the closest Exit.
3. Do not use any elevators.
4. Call 911.

Take any medication with you, as you might be outside for a while. Once you have evacuated, please see a UHS staff member for additional information. Do not re-enter the building unless you are instructed to do so by a UHS staff member.

Please note: Fire alarms have clear plastic covers over them that must be lifted up prior to pulling down the red handle on the fire alarm pull-station.

REPORTING A FIRE IN AN ON-CAMPUS RESIDENTIAL FACILITY

The titles of each person or organization to which individuals should report that a fire occurred in the on-campus residential facilities include the following:

1. University Police: 911 on-campus or (408) 924-2222
2. Resident Advisors
3. Community Desks
4. Residential Life Coordinators
5. Associate Vice President of University Housing Services
6. Director of Residential Life
7. Facilities Development & Operations Personnel including: Senior Director of Utilities, Fire Technicians and the Campus Deputy Building Official

FUTURE FIRE SAFETY IMPROVEMENT PLANS

An annual review of fire safety procedures and policies is completed by the Director of Residential Life. Based on this review documents and online materials will be updated accordingly.

ON-CAMPUS RESIDENTIAL FACILITY FIRE STATISTICS 2023-2025

Campus Village A (CVA)

Address: 380 S. 9th Street, San José, CA 95112
